

WBE758

WiFi 7

Insight Managable WiFi 7 Access Point

Advanced WiFi for Advanced Business

The WBE758 expands the NETGEAR Insight Cloud Access Point products to offer a next generation tri-band access point that includes a new and ultra wide, ultra fast WiFi frequency band. The WBE758 is a 2.4GHz, 5GHz and 6GHz tri-band design delivering up-to 18.4Gbps total WiFi throughput, supported by a 10G/Multi-Gigabit Power-over-Ethernet port, and industry leader of technology innovation and performance in its product class.

The WBE758 enables industry's next generation WiFi standard, WiFi 7 operating on 6GHz band, delivering unprecedented data throughput speed and available channels for WiFi connectivity with smartphones, IoTs, and computers.

The newly expanded 6GHz band provides up to 2.4 times more channels for WiFi communication, enabling the WBE758 to deliver faster speed, handling more client devices in a significantly less congested environment.

WiFi 7 operates in 2.4GHz, 5GHz, and 6GHz bands, with 80MHz channelization in the 5GHz band. By contrast, WiFi 6 operates in 2.4GHz, 5GHz, and 6GHz bands, with 320MHz channelization in the 6GHz band. By enabling the 320MHz channels, the WBE758 delivers up to twice the speed in the 5GHz band than WiFi 6 Release 1 access points.

The WBE758 is ideal in high density client device environments such as schools, hotels, restaurants and conference centers, and provides enterprise-grade WiFi network security. With Insight management, WBE758 works seamlessly with your current NETGEAR Insight managed switches, WiFi access points and network storage, and is compatible with previous generation WiFi devices (WiFi 5 802.11ac for example) and WiFi access points. Enjoy a 4-Year Insight subscription included with WBE758.

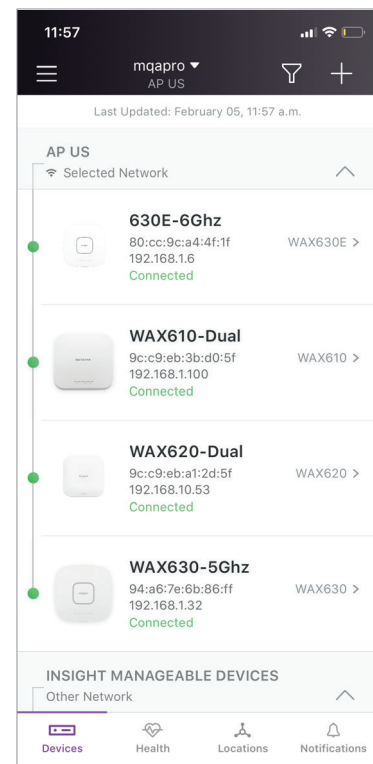

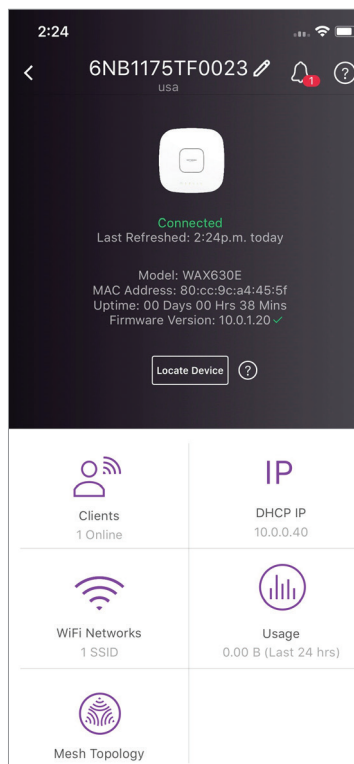

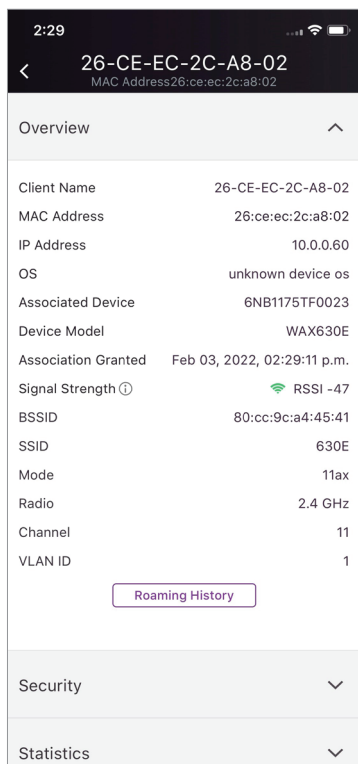

With the updated WiFi 7 (802.11be) technology such as preamble puncturing,[†] multi-link operation,[†] and increased speeds, coverage, and capacity, you can feel confident that you're getting the highest performance WiFi that's set for years to come! Plus the assurance that you can now add more connected devices on your business WiFi network without any slowdowns or blind spots.

The WBE758 combined with Insight, helps businesses with an easy way to manage their network even without an IT expert, providing great WiFi connection leaving each of their customers satisfied as a network user.

The WBE758 is compatible with other Pro WiFi Insight managed access points to form a scalable wireless network.

Business features for higher speed, greater coverage and higher density tri-band WiFi

- Business-class WiFi based on next generation 802.11be WiFi 7 technology on 6.0GHz, 5.0GHz and 2.4GHz bands. (Backward compatible to 802.11b/g/b/n/a/ac/ax)
- Support 320MHz channelization in the 6GHz channel and 160MHz in the 5GHz channel to deliver 2.4 times the throughput compared to previous generation
- Tri-band, 2.4GHz, 5.0GHz, 6.0GHz, 8 streams of data for an aggregate throughput of up to 18.4Gbps
- Instant WiFi Mesh forming wireless backhaul with other Pro WiFi Insight managed access points to form a WiFi mesh network
- 100% more throughput in 4-stream 5.0GHz band compared to previous generation
- 4 times more client device supported
- Enterprise security and Enhanced Open security, such as WPA3, WPA2 Enterprise, WPA3 Enterprise, 8x SSID, Dynamic VLAN and VLAN
- Basic Service Set Coloring (BSS Coloring) enabling significant improvement in radio frequency channel efficiency and reduction of interference
- Orthogonal Frequency Division Multiple Access (OFDMA) allowing simultaneous services to multiple devices in the same channel thus improving bandwidth efficiency and reducing latency
- 10G/Multi-Gigabit PoE++ (802.3bt) Ethernet port, compatible with 100M/1G/2.5G/5G/10G connections, supported by NETGEAR [MS510TXUP](#), [MS324TXUP](#), [MS108TUP](#), and other Multi-Gigabit Ethernet switches
- Target Wake Time (TWT) allows more efficient power usage resulting in longer battery life in WiFi 6 client devices
- Beamforming+; Advanced 6th generation WiFi technology such as up and downstream MU-MIMO
- Remote management and monitoring from NETGEAR Insight app or Cloud portal for unrivaled management experience of your wireless network.
- Quick installation and setup through NETGEAR Insight app or Cloud portal. No additional hardware needed.
- Market leading 5-year warranty with 24x7 chat support for peace of mind

WBE758 Deployment Scenario

NETGEAR®
INSIGHT

Simply activate NETGEAR Insight Cloud management to manage your network. Anytime. Anywhere.

Activating NETGEAR Insight Cloud management enables users to experience simpler configuration and deployment from anywhere using the NETGEAR Insight app from mobile devices or the Insight Cloud portal from any device with a web browser.

Unique advanced management features of these Insight managed devices include:

- Remote monitoring and management with performance dashboards and troubleshooting features including remote reboot, port and PoE advanced configuration including remote enable/disable/power-cycle, PoE scheduling, and firmware updates with auto-schedule mode
- Single pane-of-glass multi-device, multi-network, and multi-site remote monitoring and notifications with the NETGEAR Insight app
- Full-fledged local or remote access for configuration, management, and monitoring on a larger display using your tablet, laptop, or desktop computer through the NETGEAR Insight Cloud portal
- Configurable in-app and email alerts and notifications
- Auto-join and configure (zero-touch provisioning) for additional Insight managed devices added to the network
- Centralized network configuration (policies) across Insight managed switches, and access points for VLANs, ACLs, QoS, LAGs, etc.
- Cloud-based network administration, monitoring, and firmware management

For more information about NETGEAR Insight-manageable device settings, please see at:
<https://www.netgear.com/support/product/Insight.aspx>

As a part of NETGEAR's Total Network Solution, this product is compatible with a wide range of routers, access points and switches that can be remotely managed through the Insight Remote Cloud Management platform.

Technical Specifications

Product Comparison	WBE758
WiFi Standards	6.0GHz: 802.11802.11ax/be 5.0GHz: 802.11a/n/ac/ax/be 2.4GHz: 802.11b/g/n/ax
Wireless Mode (Transmit x Receive)	4x4 in 6.0GHz 4x4 in 5.0GHz 4x4 in 2.4GHz
Channelization	5GHz: 20/40/80/160MHz 6GHz: 20/40/80/160/320MHz
OFDM/OFDMA	OFDM and OFDMA
BSS Coloring	Yes
Multi-User MIMO	Bidir and MU-MIMO
Target Wake Time (TWT)	Yes
Maximum Theoretical Throughput	18.4Gbps
Maximum Theoretical Throughput per Band	6.0GHz: 11,530Mbps 5.0GHz: 5,765Mbps 2.4GHz: 1,147Mbps
Antenna Gain	Internal 4.4/6.3/3.1 dBi (2.4GHz/5GHz/6GHz)
Power over Ethernet (PoE)	802.3bt/at
PoE Power Consumption	39W
Centralized Management	NETGEAR Insight Cloud
Secure Socket Layer (SSL)	Yes
Wireless Distribution System(WDS)	
Repeater	Yes
Bridge Point-to-point/Multi-point	Yes
Simultaneous Bridge and Wireless Client Association	Yes
Security	
WiFi Protected Access (WPA/WPA2 WPA3), 802.11i	Yes
MAC address filtering with access control	Yes
802.1x RADIUS support with EAP TLS, TTLS, PEAP	Yes
Neighbor AP detection	Yes
Block SSID Broadcast	Yes
VLAN Support	Yes
Guest Network/Captive Portal	Yes
Bandwidth management	Yes
Link Layer Discovery Protocol	Yes
Bandsteering	Yes
Instant WiFi Mesh	
Wireless backhaul to form Mesh Network	Yes

Technical Specifications

Standards		WBE758
IEEE 802.11ax WiFi 6 standard		Yes
WMM Wireless Multimedia Prioritization		Yes
WDS Wireless Distribution System		Yes
Power over Ethernet (PoE) IEEE 802.3af		No
Power over Ethernet (PoE) IEEE 802.3at	Yes, max throughput will reduce by 50% on 2.4GHz, 25% on 5GHz and 25% on 6GHz.	
Power over Ethernet (PoE) IEEE 802.3bt		Yes
Physical Specifications		
Dimensions W x D x H	266.6 x 268.3 x 55.5 mm (10.49 x 10.56 x 2.18 in)	
Weight	1.05 kg (2.31 lb)	
Environmental Specifications		
Operating temperature	0° to 40°C (32° to 104°F)	
Physical Interfaces		
Interface	One 10G /Multi-Gigabit PoE++ port (IEEE 802.3at or 802.3bt doesn't support IEEE 802.3af)	
Power adapter (not included)	12V DC, 3.5A; plug is localized to country of sale	
LED	One (1): Power and cloud connection; Two (2): LAN ports; Three (3): Radio (2.4GHz, 5GHz, 6GHz)	
Security		
WiFi Protected Access® (WPA, WPA2, WPA3)		Yes
WPA2 and WPA3 Enterprise		Yes
