your vision – OUR MISSION

ABOUT US

Welcome to AUDIO & VISION

Our products and services cover the fields of professional audio, lighting and visual systems for live or on-stage events, recordings, entertainment, installation and broadcast.

Exclusive distribution of more than 40 best-in-class brands for the Greek market ensures access to leading solutions across all sectors.

In-house and on-site authorized service is available, along with all required certifications.

Complete audio, lighting, visual and networking solutions are delivered either directly or through a trusted partner network.

Strong technical expertise, combined with 27 years of project experience, establishes AUDIO & VISION as a highly reliable solution provider.

Actual Impacting Services

We fully leverage our experience and every opportunity to continuously improve our performance. Our goal is growth: of our business, our capabilities, our expertise and our future options.

Our exclusive distributions, combined with our “always in stock” philosophy, have established AUDIO & VISION as the ideal solution in the minds of our customers.

SALES DEPARTMENT

SOUND

The Audio Sales Dept of AUDIO & VISION offers a wide range of top-tier audio solutions, including professional sound systems, studio equipment and advanced technology for both consumer and professional applications.

With expert guidance and leading brands, we serve audio enthusiasts, sound engineers, installers and businesses seeking high-quality equipment tailored to their needs.

SALES DEPARTMENT

LIGHTING

The Lighting Sales Dept of AUDIO & VISION provides complete lighting solutions for every need, from professional venues and events to creative applications.

We offer state-of-the-art equipment from leading brands, while our specialized team is ready to help you select the right products for flawless performance and impressive results.

SALES DEPARTMENT

VISUALS

The Visual Sales Dept of AUDIO & VISION specializes in high-quality visual solutions, offering cutting-edge equipment for professionals.

With top-tier products and tailored proposals, we help you create unique viewing experiences and real-time visual processing applications.

SALES DEPARTMENT

AVnet

The Avnet Sales Dept of AUDIO & VISION focuses on modern audiovisual networking solutions (AV over IP), delivering advanced technologies for the integration, management and control of audio, lighting and visual systems over networks. With reliable equipment from leading brands and specialized technical support, we implement flexible and scalable systems for commercial, residential, broadcast and education applications, ensuring stable performance and seamless operation.

Showroom

Best-in-class products in audio, lighting, visual and networking have found the presentation they deserve in a welcoming, high-spec and user-friendly space.

Our visitors have the opportunity to interact with specialists and experience products in action.

Book your appointment today and enjoy a hands-on experience!

SEMINAR DAYS AUDIO & VISION

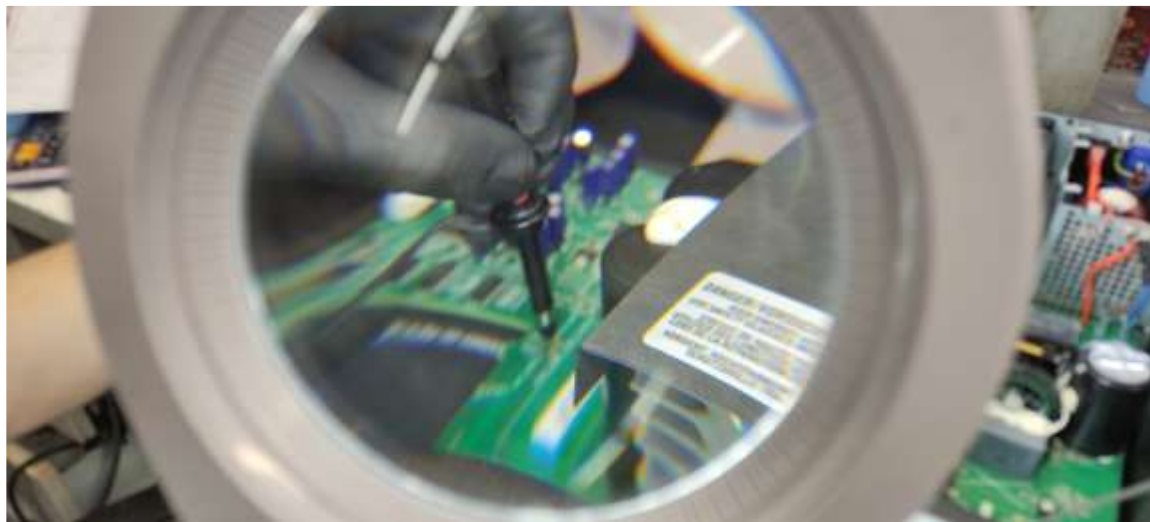

Our seminars started as a pilot initiative, but their great success has established them as a benchmark for industry professionals.

Globally recognized companies in audio, visual and lighting choose us for their training seminars and presentations.

TECHNICAL DEPARTMENT

Service Center

At the AUDIO & VISION Service Center, our primary focus is to support products—both from our represented brands and our partners—with reliability and responsibility for 27 consecutive years.

TECHNICAL DEPARTMENT

Your Service Starts Here!

Authorized Service

All repairs are carried out using certified spare parts and are covered by a service warranty, as an authorized service center.

This ensures that every repair at our Service Center is reliable and completed efficiently.

TECHNICAL DEPARTMENT

Sound, Light & Visual Systems Installations

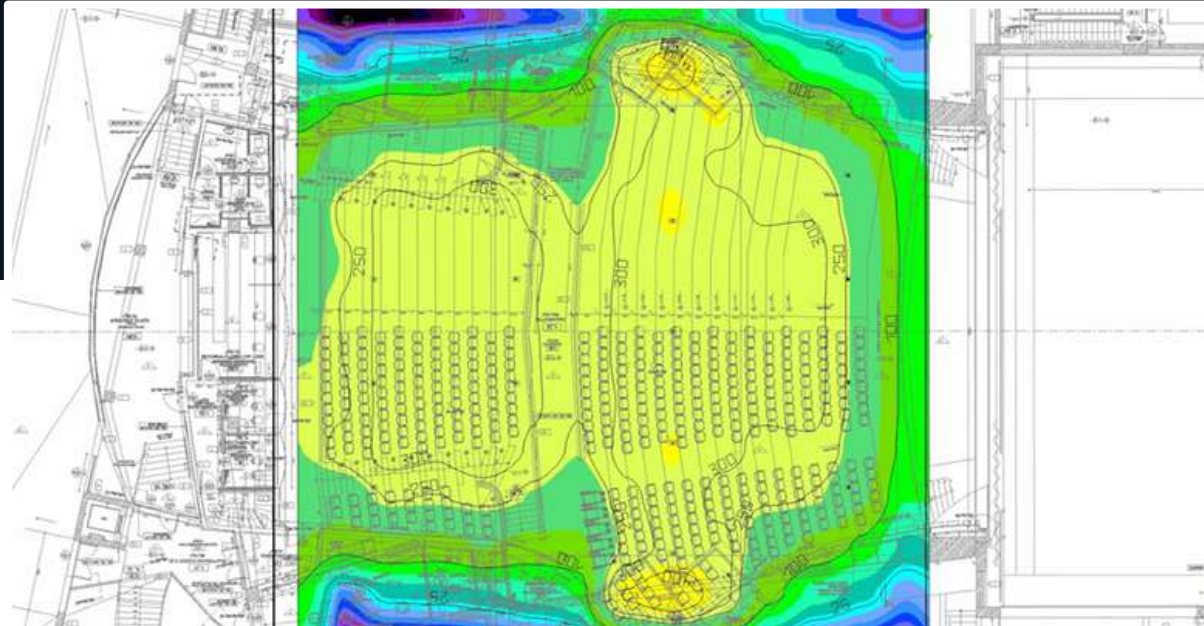

With our extensive experience in the design and installation of audio, lighting and visual systems both in Greece and internationally, we guarantee top-quality results for every project.

In recent years, numerous systems have been successfully installed for individuals, businesses and public organizations. Our design and installation team is capable of delivering—or supporting through partners—from the simplest to the most demanding audio, lighting and visual systems for any space.

TECHNICAL DEPARTMENT

Consulting

Our team is always available to meet with you, assess your needs and propose the most suitable and cost-effective solution for each case.

01

Audio & Visual Systems Design

Each study is delivered complete with layout drawings, details and technical descriptions, bill of quantities and cable lists, either to the project engineer or directly to the client.

Indicatively, we provide:

- Final design studies
- Application studies
- Shop drawings
- Audiovisual system studies for any type of space
- Electroacoustic studies using EASE 4.3

02

Lighting Systems Design

By utilizing advanced digital design tools and photorealistic visualization (Lighting Simulation), we offer our clients a reliable and realistic preview, ensuring a flawless visual result.

TECHNICAL DEPARTMENT

Lifting Equipment Certification

We undertake the issuance of official certification for CMET lifting equipment in Greece.
All lifting equipment undergoes thorough inspections by our technicians, who—after hands-on training and written examinations—ensure full compliance with all safety protocols.

The AUDIO & VISION Service Center is
**officially authorized by the manufacturer for
CMET lifting motors used in audio, lighting
and visual equipment.**
